

The Bureau of Analytics and Research (BAR) has identified several reports that retrieve data from legacy systems or are no longer use as a result of contract changes. These reports are no longer used for program monitoring or case management. As a result, these reports will be archived. This will help declutter many of the report folders and reduce confusion. This effort has the additional benefit of making the remaining reports easier to find.

We ask that you review the report list below. If you have concerns or feedback about a report, email BAR at DCFDVESBARRequest@Wisconsin.gov

The following WEBi reports are scheduled for archive on **July 12, 2023**.
